Simplified Training Solutions Donates HIPAA Training Library to the University of Fairfax

[Simplified Training Solutions](#) has donated its HIPAA Compliance Training Library to the University of Fairfax in Vienna, VA. The HIPAA Compliance Training Library consists of over 3.1GB of computer/video based training and compliance materials for medical, dental and small business offices. The American Medical Association, the Society for Human Resource Management (SHRM) and the Association of Health Insurance Advisors (AHIA) are only a few of the associations and companies that distribute the STS HIPAA Compliance Training Library.

"This is a huge step for us," says Victor Berlin, President of University of Fairfax, "Simplified Training Solutions donation will enable University of Fairfax doctoral students to undertake research that examines factors affecting the trends in HIPAA compliance and impacts."

The Library contains video and software based training systems and training documentation that will enable the University of Fairfax to become a center of excellence in HIPAA compliance and impact research.

"We are impressed with the focus of the University of Fairfax and feel that this software contribution will add to the rapidly growing information security curriculum at the University," adds Rob Karn, VP Marketing, Simplified Training.

About Simplified Training Solutions

Simplified Training Solutions (www.simplifiedtraining.com), which has seven employees, is a subsidiary of Raleigh-based marketing and communications firm [Connections Too](#) that translates obtuse regulations into real-world, multi-media learning experiences.

At Simplified Training Solutions they prepare HR professionals, privacy and security officers, healthcare professionals, and healthcare administrators to meet federally mandated compliance regulations. With more than 100 years of combined regulatory, educational, professional management and healthcare experience, the staff prepares and delivers educational products and communications training in a variety of media that best meets the needs of individual learners.

HIPAA training (privacy and security), electronic health records, and change management are their areas of concentration. When creating training products, they collaborate with prominent health law and business attorneys and e-health consultants so you can feel sure the materials they offer will be accurate.

About The University of Fairfax

The University of Fairfax, a private, non-profit graduate university located in the national capital region, was established to address accelerating shortages in qualified information security personnel. The University is a leading provider of high quality, online graduate degree programs in information security/assurance for adult professionals. Project-driven curricula are delivered through web-based technology enabling the University to serve a national student body. The faculty is comprised of senior practitioners in information assurance serving federal agencies, federal contractors and private-sector employers. The University enables adult learners to advance their careers in the information security field through its unique, accelerated Masters and Ph.D. programs in information security. To secure your future, and to learn more about the University of Fairfax, its programs and services, please visit www.UniversityofFairfax.net.
